PERSONAL Born February 20, 1984, in 's Gravenhage, The Netherlands. Dutch Citizenship.

EMPLOYMENT–
RESEARCH *Jan 2008–Present.* PhD Student Psychological Methods at the University of Amsterdam. My promotor is Prof. Dr. H. van der Maas, my supervisor is Dr. E.J. Wagenmakers. This project is on the speed–accuracy trade–off in two–alternative forced choice tasks. The diffusion model, a cognitive model useful for analyzing both speed and accuracy measures of these kinds of tasks, is paramount to this research project.

Sep 2007–Dec 2007. Research Assistant Psychological Methods at the University of Amsterdam. In this function I administered a computerized research task on the (lack of) benefit of unconscious decision making. I was also responsible for the communication with the Erasmus University in Rotterdam and setting up a research lab there.

Mar 2005–Mar 2007. Research Assistant Psychonomics at the University of Amsterdam. In this function I assisted with the practicalities of setting up an experiment and I carried out the statistical analyses.

EMPLOYMENT–
TEACHING *Feb 2009–June 2009.* Designing and teaching the course 'Methodological Forum' at the University of Amsterdam. This course is about numerous philosophical problems in Psychology. Examples are whether we have a free will and what the nature of consciousness is.

Mar 2008–May 2008 & April 2009–June 2009. Supervising a group of four to five students. I instruct(ed) them in carrying out, analyzing and reporting on an empirical research project.

Sep 2007–Dec 2007. Teaching Assistant Research Practicals at the University of Amsterdam. In this function I prepared classes for small groups of students, mainly on statistics and academic writing. In addition, I corrected and graded four papers from each individual student.

Jun 2007–Aug 2007. Tutoring individual first–year psychology students on a Statistics course. I worked through statistical exercises with them, devised tests and generally helped them prepare for their exam.

Jan 2007–Current. Teaching Assistant on the course 'Programming in R and Matlab' at the University of Amsterdam. In this function I assisted by answer-

ing students questions about the course assignments, both during class and on the internet forum Blackboard. I also was responsible for creating and marking course assignments and the final exam.

Mar 2005–Mar 2007. Teaching Assistant Psychonomics at the University of Amsterdam. In this function I answered questions about the exams and managed information on the internet forum Blackboard for the course 'Consciousness and Unconscious Processes'. I also taught individual students to work with programming software, such as E-Prime.

EMPLOYMENT–
OTHER

Sep 2004–Sep 2006. Student Coordinator at the University of Amsterdam. In this function, I was the coordinator of a group of university student mentors, who visited different high-schools in Amsterdam to counsel groups of high-school students about life on University. I met with the school deans and basically functioned as a liaison between the school, the university and the student mentors.

EDUCATION–
ABROAD

Mar 2007–July 2007. Writing of my second research master thesis with Prof. Dr. Oliver Wilhelm at the Humboldt Universität in Berlin. During my period here, I set up and administered a study on individual differences in response time and worked in a team of excellent scientists for five months.

EDUCATION

Feb 2008–Present. Diverse courses. Some internal, such as 'Calculus' and 'Mathematical Statistics' at the University of Amsterdam. Some external, such as 'Generalized Latent Variable Modeling' at the University of Tilburg.

Sep 2005–Sep 2007. Research Master of Science in Psychology–cum laude. Department of Psychological Methods at the University of Amsterdam. Thesis I: Parameter Identification in Ratcliffs Diffusion Model. Thesis II: Conflict Monitoring and Control in the Simon Task and the Eriksen Flanker Task: Modelling Reaction Time–Distributions and Exploring Correlates.

Sep 2002–Sep 2005. Bachelor of Science in Psychology–cum laude and with honours. Department of Psychonomics at the University of Amsterdam. Thesis I: Parameter Identification in Ratcliffs Diffusion Model. Thesis: The Dutch WAIS–III after Renorming (De Nederlandstalige WAIS–III na Hernormering).

Sep 2002–Sep 2003. Propedeuse Beta Gamma–cum laude. Interdisciplinary Department at the University of Amsterdam. This was a one year educational program I took parallel to Psychology and had a very broad curriculum, focusing on both beta–topics, such as Physics, Mathematics and Chemistry and gamma–topics, such as Sociology, Economy and Philosophy of Science.

Sep 1996–Sep 2002. Vossius Gymnasium Amsterdam–cum laude. Profile Nature & Technics (Natuur & Techniek), courses: Dutch, English, German, French, Economics, Mathematics, Physics, Chemistry.

- SCHOLARSHIPS For my five month stay in Berlin to work with prof. dr. Oliver Wilhelm, I have been awarded the following scholarships:
- *An Erasmus grant*
 - *A grant from Stichting Bekker-la Bastide*
 - *A grant from Stichting Fundatie van de Vrijvrouwe te Renswoude*
 - *An internal grant from the International Funding of the University of Amsterdam*
 - *A grant from the AUV fonds*
- PAPERS
- Van Ravenzwaaij, D., Brown, S., van der Maas, H.L.J., & Wagenmakers, E.–J. (in preparation). A Diffusion Model Perspective on the Relation between Response Speed and Intelligence in Elementary Cognitive Tasks.
- Van Ravenzwaaij, D., van der Maas, H.L.J., & Wagenmakers, E.–J. (in preparation). Does the Racial Implicit Association Test Measure Prejudice?
- Van Ravenzwaaij, D., Dutilh, G., & Wagenmakers, E.–J. (in preparation). Cognitive Model Decomposition of the BART: Assessment and Application.
- Huizenga, H.M., Wetzels, R., van Ravenzwaaij, D., & Wagenmakers, E.–J. (2009). Decision Making after Conscious and Unconscious Thought. *Organizational Behavior and Human Decision*. Manuscript submitted for publication.
- Van Ravenzwaaij, D., & Oberauer, K. (in press). How to Use the Diffusion Model: Monte–Carlo Simulations Evaluating Parameter Recovery of Three Methods: EZ, Fast-DM, and DMAT. *Journal of Mathematical Psychology*.
- Keye, D., Wilhelm, O., Oberauer, K., & Van Ravenzwaaij, D. (2009). Individual Differences in Conflict–Monitoring: Testing Means and Covariance Hypothesis about the Simon and the Eriksen Flanker Task. *Psychological Research (73)*, 762–776.
- Van Ravenzwaaij, D., & Hamel, R. (2006). De Nederlandstalige WAIS–III na Hernormering. *De Psycholoog (5)*, 268–271.
- CONFERENCE AND SEMINAR PRESENTATIONS
- Van Ravenzwaaij, D., Dutilh, G., & Wagenmakers, E.J. (2009, August). *The effects of alcohol: A diffusion model decomposition*. Paper presented at the annual meeting of the Mathematical Psychology Society, Amsterdam, The Netherlands.
- Van Ravenzwaaij, D., Dutilh, G., & Wagenmakers, E.J. (2009, June). *The effects of alcohol: A diffusion model decomposition*. Paper presented at the meeting of the IOPS Summer Conference, Tilburg, The Netherlands.
- Van Ravenzwaaij, D. (2009, April). *LaTeX. It really is all about the looks*. Course taught at the Erasmus Symposium on Bayesian Statistics and its Use

for Psychological Science, Tübingen, Germany.

Van Ravenzwaaij, D., Wilhelm, O., Keye, D., & Oberauer, K. (2007, July). *Sequential Dependency in the Simon and Eriksen Flanker Task*. Poster presented at the annual meeting of the International Society on the Study of Individual Differences (ISSID), Giessen, Germany.

ADDITIONAL
CONFERENCE
ATTENDANCES

Dec 2008. IOPS winter conference, Oegstgeest, The Netherlands.

Jul 2008. Annual Mathematical Psychology Conference, Washington DC, USA.

Feb 2008. Erasmus Symposium on Mathematical and Computational Models in the Psychological Sciences, Padova, Italy.

Feb 2007. Erasmus Symposium on Psychometric Models, Bremen, Germany.

Feb 2006. International Symposium on Vision and Psychometrics, Biggar, Scotland.

EXTRACURRICULAR
ACTIVITIES

Dec 2008–August 2009. Organisation of the annual Mathematical Psychology Conference, which will be hosted in Amsterdam in August 2009. I am responsible for managing the website (<http://www.mathpsych.socsci.uva.nl/index.php>), for providing our international guests with good hotels, for part of the financials, and for the decoration of the conference venue.
